Evaluation report regarding the use of DLG (Gifted Programme) 2013-2014 (Leadership Training)

1. Brief Summary
In order to enhance student leaders with solid leadership skills, to increase their awareness of local and world issues, as well as to prepare them as future leaders in the global society, we encouraged potential student leaders to join the Summer School for Effective Leadership Camp. This 9-day-8-night program was co-organized by the Hong Kong Federation of Youth Groups and the University of Hong Kong.

2. Evaluation methods on student learning
Participants had to prepare a brief report on what had been gained from the programme.

3. Key findings
One F.4 student joined this programme. She not only had a chance to meet the prominent leaders in society and other student leaders from all over the world, she also attended leadership training workshops, themed lectures and sharing sessions. She has gained valuable insight and better understanding of the importance and values of effective leadership. On returning to school, she has put these into practices as one of the school student leaders. She has shown a significant increase in the level of confidence and works more efficiently in organizing student activities.

4. Conclusion and recommendation
Students should be encouraged to join this kind of training programme. It is also recommended that the school should continue to provide elite students with different opportunities to further develop their leadership skills.
